DOING BUSINESS WITH THE CITY OF UNIVERSITY PARK

This guide gives a brief description of the City of University Park, Texas, procurement process. While this guide does not cover every regulation, practice, or statute governing purchasing, it does provide the basic principles of our procurement process.

MISSION STATEMENT AND PURPOSE

The City of University Park strives to ensure fair, competitive access to governmental procurement by responsible vendors and to conduct business activities in such a manner as to foster public confidence in the integrity of the City of University Park. The City's Purchasing Division is responsible for buying supplies, materials, and equipment necessary for the delivery of municipal services, professional or personal services, and construction services.

VENDOR REGISTRATION

The City of University Park contracts with Periscope S2G (formerly BidSync) for the maintenance of an automated vendor list. This list categorizes each vendor by the commodity codes for the goods or services offered by the vendor.

Vendors registered with Periscope S2G are notified by e-mail or fax when a formal sealed bid or informal request for quote has been issued for the commodity or service offered by the vendor.

To place your business on the vendor list, register online with Periscope S2G or call 1-800-990-9339. The registration form asks for general information about your business and for a list of the commodities and services your business provides. Vendors only need to register once with Periscope S2G to receive bid information for all participating Periscope S2G agencies. However, Vendors should check their registration periodically to ensure that all contact information is up to date.

There is no cost to vendors for registration or for submitting standard electronic bids and quotes via Periscope S2G.
